PROFESSIONAL SUMMARY

I am a focused, detail-oriented React Developer with comprehensive experience in team leadership, individual contribution, and a proven acumen for the design and testing of reliable web applications that meet client requirements. Completing the MIT xPro MERN Full-Stack Coding curriculum gave me hands-on experience and exposure to a myriad of different technologies and frameworks such as NodeJS, GraphQL, ExpressJS, and MongoDB. Developing a strong grasp of ReactJS, CSS, and web standards has allowed me to demonstrate the ability to implement technology principles and best practices quickly and effectively.

TECHNICAL SKILLS

- React
- JavaScript
- CSS/HTML
- Bootstrap
- GraphQL

- MongoDB
- Node
- AWS
- Git/Github
- Apollo

- Redux
- Heroku
- Jest
- Firebase
- Express

- Formik
- Strapi
- Postman
- Docker
- Swagger

Professional Experience

MIT xPro -- Professional MERN Full Stack Coding Course, October 2021 to April 2022

- Capstone project: Utilized **useContext**, **ExpressJS**, **MongoDB**, and **ReactRouter** to create a SPA banking application. Features include Login and Logout (user information is saved), Withdraw and Deposit Funds, and Account Balance.
- Bus tracker Application: SPA that integrates the **mapbox.com** API to create a map showing the bus stops in Boulder, CO. Coordinates entered will show the bus route and bus stops along the way.

Portfolio Page – React Developer, 2022
Tech Stack: React, HTML, CSS

- Leveraged technical expertise while using **React** and **CSS** to build a personal portfolio page. Utilized **React-icons** library and **EmailJS**. Deployed the site with **AWS**.
- Features include navigation and active links to my resume, email, and **GitHub** account.

Hacker Stories – Frontend Developer, 2022
Tech Stack: React, HTML, CSS

- Built a SPA with **Create-React-App** that queries the Hacker News API and returns formatted search results to the User.
- Features include pagination, client-side and server-side searching, and advanced interactions like sorting. Deployed using **Firebase**.

Walgreens: Store Manager Nashville, Tennessee, and Denver Colorado 1999 – 2020

- Supervised multiple teams of more than 20 employees and delivered active, functional support to effectively manage and operate Walgreens Store and Pharmacy.
- Maintained a team member **turnover rate of < 10%.**
- **Project manager** for Walgreens booth at the Southern Woman's Show which had 20,000 attendees.

EDUCATION AND CERTIFICATIONS

MIT xPro – Professional Certificate in Coding: Full Stack Development with MERN, April 2022
Professional Certificate in HTML and CSS, W3Schools, June 2020
